Septillions

Octillions

Nonillions

Decillions

Undecillions

Commas are placed every **3** place values, starting at the decimal point, going to the **LEFT** only.

(Whole number's only!!!)

---

If a number does not have a decimal point, you may place one at the end of that number.

EX.  $578 = 578.0$

$$53 = 53.0000000000$$

**4** Steps to saying (or writing) a **number**:

Step 1: Say the whole number side.

Step 2: Say the word '**AND**'.

Step 3: Say the decimal side number.

Step 4: Say the place value of the last digit.
