

Find the sum both vertically and horizontally (BE SURE to write the explanation for each vertical line!).

Vertically

Horizontally

$$(6n - 7) + (-15n + 7)$$

$$(6n - 7) + (-15n + 7)$$

$$(8n - 19) - (7n - 16)$$

$$\frac{1}{2}(18n + 3) + 12(6n - 2)$$

$$(4n + 3.8) + (n - 4.85)$$

$$\frac{3}{4}(4n + 3) - \frac{1}{4}(3n - 9)$$
